Century
Batteries that last and last

MARINE

Perfectly Adapted to Life on Water

The Century Marine range includes a comprehensive selection of superior quality starting, dual purpose and Deep Cycle batteries designed to provide long lasting dependable power in both commercial and recreational marine applications.

Designed and manufactured using advanced plate technology, thicker plates and specialist heavy duty internal components, Century Marine batteries are designed to handle New Zealand's extreme marine conditions, harsh climates and the excessive impact and vibration associated with wave pounding and trailer transportation.

From dedicated starting batteries, to dual purpose AGM options and a range of dedicated Deep Cycle solutions including Lithium and AGM, whatever your Marine power requirements Century Batteries has the solution.

Century Batteries, designed for New Zealand conditions

Century Batteries is part of the Century Yuasa group, New Zealand's leading battery supplier. Our reputation for quality and innovation has been refined and demonstrated over many decades.

In this time we have developed the engineering expertise and technical know-how to ensure we deliver a range of superior quality batteries better suited to New Zealand's diverse climate and tough conditions.

MARINE PRO

The ultimate in marine batteries, perfectly adapted to life on the water. Century Marine Pro batteries are specifically designed to handle the harsh and demanding environments which boats are often subjected to.

Engineered for purpose and manufactured using quality components, the Century Marine Pro offers a wide range of product options to suit all popular boat types and engine sizes. From a starting battery for a tinny, right through to batteries for starting larger engines and powering accessories – there's a Marine Pro battery to suit.

Marine Pro

Century Marine Pro batteries are designed and manufactured to handle the rigours of wave pounding and deliver reliable starting power and performance. The Marine Pro range can start engines from 70 – 350+hp and power multiple on-board accessories[^].

- ✓ Superior starting power - starts engines from 70 – 350+hp
- ✓ Dual purpose – starting and semi-cycling capabilities for on-board accessories
- ✓ Thicker full frame cast plates for improved strength and durability
- ✓ Platelock™ technology to combat the effects of wave pounding and damage from trailer transport

DUAL PURPOSE MARINE BATTERIES

The All-In-One Power Solution

Ideal for space restricted applications or situations where only one battery is required, Century's range of Dual-Purpose batteries not only provide the starting power for high compression marine engines but the added benefit of semi-cycling capability for on board electrics.

Available in an AGM (Absorbed Glass Mat) or Flooded design, Century's *Dual Force+* and Deep Cycle Plus range are constructed using extra thick battery plates, extremely hardwearing internal components and denser active material to withstand the rigours of New Zealand's harsh marine conditions and deliver dependable power and performance whilst on the water.

CENTURY BATTERIES IS A PROUD SPONSOR AND OFFICIAL BATTERY SUPPLIER TO COASTGUARD NEW ZEALAND, A CHARITY DEDICATED TO SAVING LIVES AT SEA AND EDUCATING NEW ZEALANDERS ON HOW TO STAY SAFE ON THE WATER.

Last year Coastguard New Zealand brought over 7,000 people home safely after an emergency on the water. Maritime Safety Authorities are becoming increasingly concerned over the increasing number of breakdowns on the water caused as a result of flat or incorrect batteries fitted on vessels.

Understanding your marine battery and power requirements is critical if you want to avoid becoming a marine breakdown statistic. When choosing a marine battery it is important to invest in a battery that has been specially designed to handle the demands of marine conditions and the performance requirements of marine vessels.

Dual Force+

Century *Dual Force+* are the ultimate multi-purpose AGM battery, providing powerful starting and cycling power for marine applications. Constructed using thicker battery plates, specialist glass mat separators hard wearing internal components to deliver longer and superior performance.

- ✓ Dual-purpose – starting & cycling applications
- ✓ Durable AGM construction with up to 20x greater vibration resistance
- ✓ Up to 4x more cycle life compared to standard automotive batteries
- ✓ Ideal for applications where a dual battery system cannot be fitted

Deep Cycle Plus

The all-round dual purpose Deep Cycle Plus battery with cycling and starting capabilities. Designed to provide longer life performance when continually discharged and recharged. Constructed with premium-grade raw materials and acid electrolytes to ensure reliable performance.

- ✓ Superior cycle life
- ✓ Designed to withstand repeated recharge and discharge cycles
- ✓ Platelock™ technology providing shock and vibration resistance
- ✓ Thicker plates for improved strength and durability

DEEP CYCLE MARINE RANGE

Stay Out on the Water for Longer

Century's range of Deep Cycle batteries are the ideal solution to provide long lasting, uninterrupted power for onboard electrics and accessories in recreational and commercial vessels.

Constructed using thicker full frame cast plates* denser active material and impact resistant casing, Century Deep Cycle batteries are engineered to withstand repeated deep discharge and recharge cycles.

Available in flooded, AGM, Gel and Lithium variants ranging from 55Ah to 270Ah, Century has the battery solution to suit your exact power needs.

Calculating your power requirements

NOT SURE HOW TO CALCULATE YOUR POWER REQUIREMENTS?

Use our online interactive Deep Cycle battery Power Calculator to work out your estimated Ah power requirements.

- 1 Visit www.centurybatteries.co.nz/products/deep-cycle/power-calculator or scan the QR code
- 2 List the equipment and devices you wish to power - including their power consumption (in watts) and their estimated usage time (hours)
- 3 The online Deep Cycle battery Power Calculator quickly finds the most suitable battery to power your needs

Equipment / Device	Power Consumption (Watts)	Usage Time per day (Hours)
1. <input type="text"/>	<input type="text"/>	<input type="text"/>

*Selected items only.

Lithium Pro

Century Lithium Pro batteries are designed to provide long lasting power in recreational deep cycle applications. Capable of delivering over 3000 cycles, 50% more usable energy and up to 10x faster recharging* they are suitable as a drop-in replacement for standard 12V Flooded, Gel or AGM Deep Cycle batteries^.

The superior energy capacity, operating temperature range and lightweight design makes Century Lithium Pro batteries ideal for use in a range of applications where longer life, faster recharge and dependable power is required.

- ✓ 3000+ Cycles and 10x more cycle life
- ✓ 10x Faster Recharge for less downtime & recovery from deep discharge
- ✓ Integrated Battery Management System provides safety and protection against incorrect charging, short circuit and over discharge
- ✓ Bluetooth monitoring system

†Conditions apply. Refer to individual warranty statements attached to each battery.

Century Lithium Pro batteries have been tested in accordance to industry standards relating to performance and safety to ensure that the battery conforms to the highest quality in relation to design, performance and safety.

Performance Tests

- Charge-Discharge ageing (IEC61690)
- Overcharge (UN38.3, IEC62619)
- Over Discharge (IEC62619)
- Thermal Resistance (UN38.3, IEC62619)
- V3 Vibration Resistance (UN38.3, IEC60095)
- Thermal Shock (UN38.3, IEC62619)

Safety Tests

- Nail Penetration (cell supplier)
- Impact crush/drop (UN38.3, IEC62619)
- Short circuit resistance (UN38.3, IEC62619)
- Transport of Dangerous Goods (UN38.3)
- IP65

#Century Lithium Pro batteries are not suitable for cranking/starting and under bonnet, grid connected solar systems or float charge applications.

^When used within recommended operating conditions and in conjunction with a compatible Lithium charger or charging system.

*At 80% DOD. Compared with standard flooded lead acid battery.

Deep Cycle AGM

The ultimate in deep cycle performance. Century AGM Deep Cycle batteries utilise the latest Absorbed Glass Mat technology to provide superior cycle life, maximum deep discharge capabilities and durability characteristics.

- ✓ Absorbed Glass Mat (AGM) Technology for superior cycle life
- ✓ Thicker full-frame cast plates for maximum deep discharge capabilities
- ✓ Spill-proof design allows for multi-angle fitment at up to a 90° angle[^]
- ✓ Exceptional shock and vibration resistance to handle the harshest environments
